For beginners or those wanting a refresher, take our Basic Paddlers Course in April. At our May Introduction to Moving Water, you'll learn basic river skills in a non-threatening situation and get prepared to enjoy your first river trip. For a paddling holiday, join us on one of the long weekends or on "Rivers Week" where we car-camp and paddle day trips on rivers between Princeton, Merritt and Spences Bridge. Children are welcome and family events are special times for them: camping, paddling, playing, hiking. And the club is a good place to plan your wilderness trips with others.
